

Monthly Update

April 2026

The Apollo Tyres Healthcare Express Delhi-MMU (Nav Srishti) team participated in a World TB Day event at the Chest Clinic and TB Hospital, Nehru Nagar, South Delhi. The Health Secretary of the Delhi Government inaugurated the program and flagged off the Nikshay Vahan, launching the 100-Day TB Campaign.

Supporting India's goal of eliminating TB by 2030, the campaign focuses on awareness, early detection, and community participation to help build a TB-free future.

On 12th April 2026, a Life Skills training session for children was held at the Nav Srishti head office, organized by members of the Child Development Khazana Foundation. The training session was conducted by Mr. Ashish from Butterflies. He covered topics such as skills required to manage everyday life, the difference between wants and needs, how to develop saving habits, and ways to reduce expenses on junk food.

The children also shared their experiences related to their deposits under the Child Development Khazana Project. The session was interactive and participatory.

We extend our sincere gratitude to the Apollo Tyre Foundation for providing Nav Srishti with the opportunity to implement the Apollo Tyre Healthcare Centre in Jodhpur and Jaipur, Rajasthan, in April 2026.

In both areas we will impart awareness sessions on Tuberculosis (TB) for truckers and the allied community to promote early detection and prevention. In addition, a range of essential medical services will be offered, including general health check-ups, HIV screening, hypertension screening, diabetes screening, and vision screening, ensuring comprehensive healthcare support to the beneficiaries.

On date 22 April 2026, World Earth Day was joyfully celebrated in Rajiv Nagar and Santosh Nagar in collaboration with Child Rights and You. Children learned about the importance of protecting our planet through fun and engaging activities like poster-making, tree plantation, and poetry recitation.

They expressed their creativity by drawing the Earth and sharing what makes our planet so special. Their enthusiasm and awareness truly made the celebration meaningful!

Together, let's nurture young minds to care for our Earth and build a greener future.

Thank you!
